# LEADERSHIP TRIP

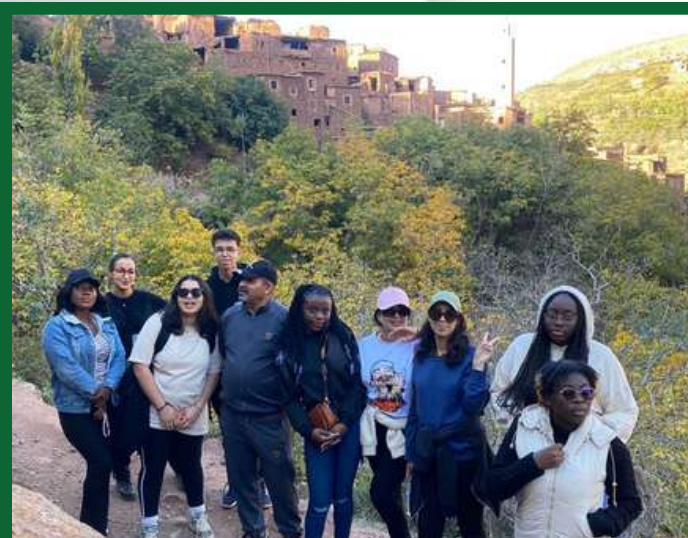

A leadership course has been set up over the years by the President of ILCS, Dr. Aicha LEMTOUNI, which has the merit of being known for her volunteer efforts through the villages of Morocco as Tikhfist or Skoura.

This course of Leadership and conflict resolution is taught in a village deep in the mountains, in the middle of the wonderful nature, with local residents.

A unique adventure that will allow you to have the opportunity to live with the families of the village, and get to know their pace of life and customs.

This trip will allow you to:

- Develop your expertise in Leadership
- Help the villagers in terms of education and awareness
- Live an exceptional human adventure
- Study your course in a different and pleasant place
- Strengthen your friendships with your classmates

# VISIT TO THE RABAT PHOTOGRAPHY MUSEUM

On November 22th, 2023, a group of ILCS Rabat Journalism students visited the Photography Museum in Rabat, Morocco.

The students were given a tour of the museum by a guide, who explained the history of photography and the different techniques that have been used over the years.

Thank you to Ms Alice DUFOUR for her initiative.

# Data Science Bachelor

This Bachelor (Bac+3) training program with a dual degree, trains students in technical skills related to coding and data science as well as in soft skills and/or power skills allowing our students to acquire, not only, essential knowledge to the web programming professions, but also leadership such as organization, precision, rigor,...

A blurred background image showing lines of code in various colors (green, yellow, red, white) on a dark background, likely representing a programming environment or a code editor.

## Join ILCS is to benefit from

- An open vision of the professions of the future;
- An innovative educational approach “learning by doing”;
- A para-university activity program centered on the development of competent citizens;
- A teaching team of university professors and experienced professionals;
- Constantly listening to the needs of the job market...

# SCHOOL OF TRANSLATION & INTERPRETING

## OBJECTIFS

“Learning by doing” or learning through practice:

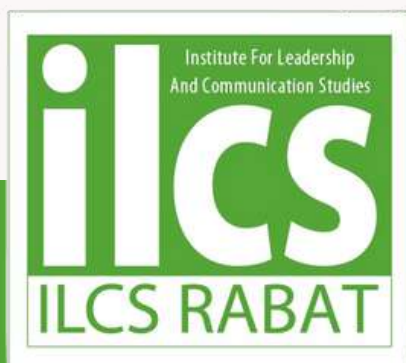

- ✓ Training professional translators and conference interpreters, capable of working at the highest level for international organizations and for the private sector at congresses or seminars.
